

Ten Ta To

A unique Czech language training application for Android and iOS phones.

Dear Czech culture aficionados!

Will you help support and encourage learning of the Czech language?

The **Ten, Ta, To** (*this*) App is a nonprofit project to create a tool for mastering one small, yet important aspect of Czech proficiency: the identification of Czech grammatical genders. It is the first basic step towards clear communication in Czech.

Help us raise remaining \$ **2,600** to make this useful App available to all teachers and students of Czech.

No contribution is too small! Tax-deductible in the USA.

You can donate by making a **check** payable to:

Czechoslovak Society of Arts and Sciences, Inc.

with a memo: **Ten-Ta-To**

and mailing it to: SVU c/o Suzanna Halsey
515 Avenue I, #1B, Brooklyn, NY 11230, USA

Thank you!

PASSION4TEQ

The demonstrative pronouns **ten, ta, to** (this) are used for teaching masculine, feminine or neuter gender of Czech nouns. Similar to the articles **der, die, das** in German or **le, la** in French.

Czech natives apply the correct gender intuitively. But for English speakers it is a challenge. Often, the Czech gender is not natural or logical, for example **kostel - postel, kůl - sůl**. However, it is very important to identify the proper gender for further correct use of Czech nouns, adjectives, pronouns, numbers and the past tense participle, as in other Slavic languages.

I wish to support the *Ten Ta To* project and enclose a check for: \$

Name: Mr./ Ms.

Ten Ta To

A Czech language training application
for Android and iOS mobile devices.

No internet connection necessary.

Free to download from Google Play and App Store.

The game format, use of adjectives and the English translation will help the user memorize genders and meaning of the **4,000 most frequently used nouns**, including nouns from the popular textbook *New Czech Step by Step* .

Features:

- ◆ A color-coded **grammar guide** to gender identification.
- ◆ A three-level **game** using spaced repetition (SRS) of incorrectly identified nouns until the correct answer is given.
- ◆ **Adjectives** with the correct answer to help the memorization process.
- ◆ A quick **look-up** of a noun's gender by typing the first few characters .
- ◆ A look-up of the noun's **English meaning**.
- ◆ A **personal list** of problematic words.
- ◆ **Statistics** helping the user track his/her progress.
- ◆ A look up of the noun's more **detailed definition** and usage in an online dictionary (Internet connection required).

Estimated completion: December 2014
